

Project Release Notes

Release 3.11 (November 2021)

What's new

Themes

Customize your apps' look and feel using Themes to reflect your organization's branding, style, and image. The Appify theme is applied by default, you can edit it using the new newly introduced Themes designer in Studio to create your theme.

As of this release, you can customize 11 theme attributes, including images, animation, colors, and font.
